## Overview and Investment Philosophy

VG1 provides investors with access to a concentrated portfolio, predominately comprised of Long and Short Positions in global listed securities; and the investment expertise of VGI Partners, the Manager.

The Manager's risk-adjusted return philosophy is implemented through three key tenets:

- 1. Capital Preservation** - The Manager believes that risk comes from not properly understanding your investments and places a great deal of importance on assessing downside risk.
- 2. Superior long-term compound growth** - The Manager believes that great businesses purchased with a 'margin of safety' held for the long term are best placed to provide superior compound returns.
- 3. Concentration** - The Manager aims to be concentrated enough in its best ideas so as not to dilute overall returns but hold enough Long Positions in order to provide an appropriate level of diversification. The Top 5 Long positions typically represent 40-50% of the Portfolio NAV.

## Commentary

The Company will provide commentary each month around the largest contributors to performance and the largest detractors from performance when the portfolio is fully invested. **The Manager has been patiently and steadily deploying the portfolio such that as at 31 October 2017 the portfolio was 20-25% of targeted individual stock weightings. Given the Manager's focus on preservation of investors' capital, the Manager may take longer than three months to fully deploy the portfolio, depending on market conditions.**

## Net Tangible Asset (NTA) Per Share

<b>NTA Pre-Tax</b>	\$2.04
<b>NTA Post-Tax</b>	\$2.04
