Overview and Investment **Philosophy**

The Manager's

return philosophy is

three key tenets:

implemented through

risk-adjusted

VG1, the Company, provides investors with access to a concentrated portfolio, predominantly comprised of Long Investments and Short Positions in global listed securities; and the investment expertise of VGI Partners, the Manager.

01

Capital preservation

The Manager believes that risk comes from not properly understanding your investments and places a great deal of importance on assessing downside risk.

02

Superior long-term compound growth

The Manager believes that great businesses purchased with a 'margin of safety' held for the long term are best placed to provide superior compound returns.

03

Concentration

The Manager aims to be concentrated enough in its best ideas so as not to dilute overall returns but hold enough Long Investments in order to provide an appropriate level of diversification. The top five Long Investments typically represent 40-50% of the portfolio NAV.
