

**Overview
and Investment
Philosophy**

VG8, the Company, provides investors with access to a concentrated portfolio, predominantly comprised of Long Investments and Short Positions in Asian listed securities and other companies with significant exposure to the Asian market; and the investment expertise of VGI Partners, the Manager.

The Manager's risk-adjusted return philosophy is implemented through three key tenets:

01

Capital preservation

The Manager believes that risk comes from not properly understanding your investments and places a great deal of importance on assessing downside risk.

02

Superior long-term compound growth

The Manager believes that great businesses purchased with a 'margin of safety' held for the long term are best placed to provide superior compound returns.

03

Concentration

The Manager aims to be concentrated enough in its best ideas so as not to dilute overall returns but hold enough Long Investments in order to provide an appropriate level of diversification. The top ten Long Investments typically represent 40-50% of the portfolio NAV.

Commentary

The portfolio's return (net of all fees and expenses) for the month of August was +3.6% with the return entirely attributable to the portfolio's Long Investments. There were no Short Positions in August.

Kikkoman contributed +1.1% for the month, Nintendo contributed +0.9% and Olympus contributed +0.6%.

The portfolio has 100% Australian Dollar exposure and thus currency fluctuations did not directly impact the return for the month.

During the month we exited the portfolio's holding in MTR Corporation. MTR is Hong Kong's monopoly operator of rail assets and also the owner of adjacent retail, residential and commercial property assets.

Nintendo was a new Long Investment during the month. VGI Partners believes that over the long term gaming will become the pre-eminent format for entertainment consumption and that, as a result, the highest quality gaming businesses have a long runway for growth. Nintendo's high-quality intellectual property portfolio positions the company particularly well for this transition.
