Overview and Investment Philosophy

The Manager's risk-adjusted return philosophy is implemented through three key tenets:

VG1, the Company, provides investors with access to a concentrated portfolio, predominantly comprised of Long Investments and Short Positions in global listed securities; and the investment expertise of VGI Partners, the Manager.

01

Capital preservation

The Manager believes that risk comes from not properly understanding your investments and places a great deal of importance on assessing downside risk.

02

Superior long-term compound growth

The Manager believes that great businesses purchased with a 'margin of safety' held for the long term are best placed to provide superior compound returns.

03

Concentration

The Manager aims to be concentrated enough in its best ideas so as not to dilute overall returns but hold enough Long Investments in order to provide an appropriate level of diversification. The top five Long Investments typically represent 40-50% of the portfolio NAV.

Top Ten Long Investments: 68% of VG1 Portfolio

15% Amazon.com Inc. (NASDAQ: AMZN) – One of the “Big Four” American technology companies, Amazon.com is the second largest private employer in the United States. The company is a leader in e-commerce, cloud computing, digital streaming, and artificial intelligence. Amazon.com has been a core constituent of the VGI Partners global strategy since 2014.

11% Mastercard Inc. (NYSE: MA) – Mastercard is a global payments processor and in a duopoly with Visa. The industry benefits from a strong secular trend toward electronic payments over cash and cheques and the COVID pandemic has accelerated this shift. Significant growth opportunities also exist in developing countries and new payment technologies (such as PayPass) that enable the more frequent use of electronic payments. Mastercard has been a core constituent of the VGI Partners global strategy since 2009.

8% Pinterest Inc. (NYSE: PINS) – Established in 2009, Pinterest is an image sharing and social media service with 400 million monthly active users. Pinterest offers a “visual search” function that allows users to search for elements in images, guiding them to suggested similar content within the company’s database. Pinterest is at an early stage of commercialising its activities outside of the United States.

6% CME Group Inc. (NASDAQ: CME) – Tracing its origins back to 1848, CME Group is the world’s largest financial derivatives exchange and trades in asset classes that include agricultural products, currencies, energy, interest rates, metals and stock indexes. CME Group has been a core constituent of the VGI Partners global strategy since 2009.

5% Olympus Corporation (TYO: 7733) – Having launched the world’s first commercial gastro-camera in 1952, Olympus is the global leader in gastrointestinal endoscopes with a global market share of over 70%.

5% Otis Worldwide Corporation (NYSE: OTIS) – Based in the USA, Otis is the world’s largest manufacturer of vertical transportation systems, principally focusing on elevators, moving walkways and escalators. Otis was spun off as an independent company in April 2020, 44 years after it was acquired by United Technologies (now Raytheon).

5% SAP SE (ETR: SAP) – SAP is the dominant market leader in providing mission-critical operational software to the largest enterprises globally. This software is very ‘sticky’ due to high switching costs and has customer renewal rates close to 100%. We believe these high switching costs will be critical in driving a successful transition of SAP’s customer base from on-premise software into the cloud.

4% Cie Financière Richemont SA (SWX: CFR) – A Switzerland-based luxury goods holding company with particular strengths in jewellery, watches and writing instruments. Through its prestigious Maisons, which include Cartier and Van Cleef & Arpels, Richemont has significant exposure to the Asian consumer with 45% of sales made in the Asia Pacific region.

4% Française des Jeux (EPA: FDJ) – FDJ was privatised by the French government in 2019 and has the exclusive licence to operate lottery games in France, from traditional draw-based lotteries to instant win games and scratch-cards. In addition, FDJ has the exclusive license to operate physical sports betting terminals and owns an online sports betting bookmaker.

4% Yakult Honsha Co. Ltd (TYO: 2267) – A pioneer in probiotic products, Yakult is listed in Japan with operations in 40 countries. Three quarters of earnings are generated outside of Japan.

Commentary

The portfolio's return (net of all fees and expenses) for the month of October was -2.7%. The portfolio's Long Investments detracted -3.0% from performance for the month and the Short portfolio, currently comprising three Shorts, added +0.3% to performance during the month.

Pinterest contributed +2.4% for the month as the market responded positively to quarterly earnings that showed a substantial increase in the company's international user base and strong revenue growth in the US market. Mastercard detracted -1.7% and SAP -1.2%.

The portfolio has 100% Australian Dollar exposure and therefore currency fluctuations did not directly impact the return during October.

German software business SAP was a new inclusion in the Top 10 Long Investments for the month with the holding increased substantially due to share price weakness. Two new Long Investments were initiated during October and two positions were exited (including Brisbane Markets Limited). Two new Shorts were initiated. During the month approximately 1 million VG1 shares were bought under the on-market buyback at an average price of \$1.92.
