**Overview  
and Investment  
Philosophy**

VG8, the Company, provides investors with access to a concentrated portfolio, predominantly comprised of Long Investments and Short Positions in Asian listed securities and other companies with significant exposure to the Asian market; and the investment expertise of VGI Partners, the Manager.

The Manager's risk-adjusted return philosophy is implemented through three key tenets:

**01**

**Capital preservation**

The Manager believes that risk comes from not properly understanding your investments and places a great deal of importance on assessing downside risk.

**02**

**Superior long-term compound growth**

The Manager believes that great businesses purchased with a 'margin of safety' held for the long term are best placed to provide superior compound returns.

**03**

**Concentration**

The Manager aims to be concentrated enough in its best ideas so as not to dilute overall returns but hold enough Long Investments in order to provide an appropriate level of diversification. The top ten Long Investments typically represent 40-50% of the portfolio NAV.

## Commentary

The portfolio's return (net of all fees and expenses) for the month of October was -3.9%, with the return entirely attributable to the portfolio's Long Investments. There were no Short Positions in October.

Key detractors from the return were Yakult Honsha -0.9% and Kikkoman -0.8%.

Stronger performance has been recorded in the early days of November, with the portfolio up +3.3% for the period through to Friday, 6 November.

The portfolio has 100% Australian Dollar exposure and thus currency fluctuations did not directly impact the return during October.

Crown Resorts was a new inclusion in the Top 10 Long Investments for the month.
