

**Overview
and Investment
Philosophy**

VG8, the Company, provides investors with access to a concentrated portfolio, predominantly comprised of Long Investments and Short Positions in Asian listed securities and other companies with significant exposure to the Asian market; and the investment expertise of VGI Partners, the Manager.

The Manager's risk-adjusted return philosophy is implemented through three key tenets:

01

Capital preservation

The Manager believes that risk comes from not properly understanding your investments and places a great deal of importance on assessing downside risk.

02

Superior long-term compound growth

The Manager believes that great businesses purchased with a 'margin of safety' held for the long term are best placed to provide superior compound returns.

03

Concentration

The Manager aims to be concentrated enough in its best ideas so as not to dilute overall returns but hold enough Long Investments in order to provide an appropriate level of diversification. The top ten Long Investments typically represent 40-50% of the portfolio NAV.
